

# Save The East Coast Song

**[Verse]**

Storms are brewing on the open seas  
Spinning giants tearing at the breeze  
Voices rise like waves upon the shore  
Save the East Coast  
Hear the oceans roar

**[Chorus]**

Boots on the ground  
Hearts in the fight  
Defending the waters both day and night  
For every whale and fish beneath the blue  
We save the East Coast for me and you

**[Verse]**

From the sands we've sworn to take a stand  
Protect the oceans  
Protect the land  
With every meeting  
Every call we grow  
Fighting for the life the waters know

**[Chorus]**

Boots on the ground  
Hearts in the fight  
Defending the waters both day and night  
For every whale and fish beneath the blue  
We save the East Coast for me and you

**[Bridge]**

Join the mission  
It's you and me  
Standing together 'til the waters are free  
No turbine will break this flow of love  
We stand united beneath skies above

**[Chorus]**

Boots on the ground  
Hearts in the fight  
Defending the waters both day and night  
For every whale and fish beneath the blue  
We save the East Coast for me and you
